

Kirstie's Story

Kirstie Bedford's four and a half year old, Jayden, has always had a very quizzical mind. At just a little over two he was reading out car number plates as she walked him down the street. With such strong letter recognition, Kirstie was looking for a way to support the skills he already held.

"Shae's my neighbour, and was telling me the success she's had with her own son, who has a similar personality and intellect to Jayden, so it seemed the perfect fit for Jayden to join Brainastics." said Kirstie.

In the time that Jayden has been enrolled in Brainastics Kirstie has seen his reading skills significantly improve and he is now reading three letter words.

"Jayden can now sound out and read three letter words like dog, cat and so forth. We know it is Brainastics that has taught him this skill because he is sounding things out phonetically just like Jen and Shae have taught him. I have to say, I am quite proud!"

As a working mum, Kirstie has enjoyed knowing that her son is getting extra training on his reading and writing skills and enjoying it.

"Jayden loves learning a new letter every day and doing the art and craft work which children do in every class to support the letter. He is enthusiastic about Brainastics and asks to go. I can even pull him away from a play date with friends by saying he'll be late for Brainastics!"

"It gives me peace of mind to know that he has a sound knowledge and recognition of words which ensures he's not just prepared for prep, but thanks to Brainastics he'll be at the top end of literacy amongst his peers."
